

Table 3: The relationship between Serum LDL level in ERA patients and control group

Groups	Serum level of LDL (mean \pm S.D.) mg/dl	P value
Patients with ERA	141.2 \pm 24.2	0.07
Control group	125.7 \pm 14.7	

Table 4: The relationship between Serum TG level in ERA patients and control group

Groups	Serum level of TG (mean \pm S.D.) mg/dl	P value
Patients with ERA	133.4 \pm 27.5	1.72
Control group	98.3 \pm 13.4	

Table 5: The relation ship between Serum HDL-C level in ERA patients and control group

Groups	Serum level of HDL (mean \pm S.D.) mg/dl	P value
Patients with ERA	40.5 \pm 7.9	0.009
Control group	52.0 \pm 5.5	

Table 6: Atherogenic ratio in ERA patients and control group

Groups	TC/ HDL (mean \pm S.D.)	P value
Patients with ERA	5.6 \pm 1.3	0.004
Control group	3.7 \pm 0.7	

Table 7: LDL/HDL in ERA patients and control group

Groups	LDL/ HDL (mean \pm S.D.)	P value
Patients with ERA	4.04 \pm 0.9	0.004
Control group	2.5 \pm 0.5
